

What are we learning in Perranporth this term?

September 2021

Dear Parents/Carers and children,

Welcome back after the summer, I hope you all had a good break. The children have settled well into their new class and school.

This term our Curriculum Topic is:

What is above our heads?

All of the work that we do during the Autumn Term will link to our Science topic of Earth and Space

During literacy we will be learning all about the current and important topic of climate change. We will be analysing the text and aim to produce our own text informing about current issues. Our fiction focus

for this term will be based around the science fiction book 'Eric' - an outsider who finds himself in a new mysterious world.

Our Science focus this half term will be Stars and Planets. We will be learning all about the solar system in which we live and the many other planets and stars which share it with us. Maths this term will cover a number of different units including Place Value, Addition and Subtraction and Multiplication and Division.

So all in all quite a packed programme, you can help support your child in school by reading with them as often as you can, helping them with any homework in their 'Living and Learning Books', encouraging them to use Times Table Rockstars and Mathletics.

Any questions or concerns please do not hesitate to come and find me at the end of the school day or make an appointment via the office.

Kind regards

Mr Clatworthy, Mrs Bennett and Mrs Birkenshaw

Keep your eye out for notifications and updates on the schools facebook page or website. I will also be sending home login details for seesaw. Please download the app so you can see what we are doing in class.

Important things to remember this term!

Our PE day is:
Tuesday

Children can come into school wearing their PE kit on a Tuesday.

Only water in drinks bottles please.

Please remember to read with your child at home as regularly as possible.

Practise your times tables.
